

Assignment #1 – Due Date: Friday, Jan 18, 2013

Please research the following questions via www.google.ca or another website of your choice:

1. What cellular service providers are in your area?
2. What current service plans are available in your area?
3. Pros and Cons of a service plan?
4. Pros and Cons of a pay as you go service?
5. How would you know how much data you have used on a smart phone?

Please give at least 5 options for each question (excluding question #5, and if applicable), and thus these will be bonus marks on your final mark!

Assignment #2 – Due Date: Tuesday, Jan 15, 2013

Please research on www.google.ca:

1. What is the difference between MS Office 2007 and MS Office 2010?
2. What are the benefits between them?
3. What are the minimum requirements for your computer system on both MS office 2007 and MS office 2010!
4. Which one offers more functions?
5. And which one you would prefer to use if you had a choice?

Assignment #3 – Due Date: Thursday, Jan 17, 2013

Please research on www.google.ca:

1. What would be the 3 different options for anti-virus programs to run on your computer?
2. Which would you choose and why?
3. What would be 3 different options for malware/spyware programs to run on your computer?
4. Which one would you choose and why?
5. Do you currently running Windows update on the computer? Is it scheduled to scan and update?
